BUREAU OF DESIGN EXCELLENCE

COMPANY H91

We are a team of young Slovenian creators, designing and handcrafting premium coffee tables—pieces that transcend mere furniture to become the defining aesthetic centerpiece of any space.

From the initial sketch to the final polish, every table is born from meticulously selected materials, advanced manufacturing processes, and an uncompromising attention to detail. The resulting masterpieces seamlessly blend a striking sculptural presence with timeless everyday functionality.

H91 is defined by architectural minimalism, deeply inspired by the raw beauty of nature. Solid, authentic materials like stone, wood, industrial aluminum, and carbon composites are reimagined into elegant, fluid silhouettes that feel weightless yet exude permanent strength. By preserving materials in their truest, most honest form and refining them with high-tech precision, we elevate raw elements into sophisticated design objects. Through meticulous craftsmanship, premium quality, and timeless design, we create unique statements that bring character, sophistication, and lasting aesthetic value to your home.
